

# DIY JEWELRY CHAIN WITH LOCK

**Materials:**  
1x Anchor chain, AR25, gold-plated silver (3560fg-AR25)  
1x Lobster claw, gold-plated sterling silver (3132fg-9mm)  
2x Jumpings, gold-plated silver, open 5x0.8 mm (4562fg-5mm)  
2x Chain-nose pliers (31105E)

Start by opening the first jump ring with the two chain-nose pliers and pass it through the last link in the chain.

Insert the jewelry lock into the open jump ring.

Close the jump ring again carefully with the two needle-nose pliers.

Open the other jump ring and pass it through the last link at the other end of the chain.

Close the jump ring carefully again as done previously.

Your jewelry chain is now complete!
